Test Script

1	Step Navigate to application url
	Test Data http://poll-app1-20230222.softacad.bg
	Expected Result Successfully load application Home page.
2	Step Click Navigation button Singup

	Test Data
	Expected Result Successfully redirected to Signup page.
3	Step We check for a mandatory field to enter the Full name
	Test Data
	Expected Result The user to be able to discover this field.
4	Step We check for a mandatory field to enter the Username.
	Test Data
	Expected Result The user to be able to discover this field.
5	Step We check for a mandatory field to enter the Email.
	Test Data
	Expected Result The user to be able to discover this field.
6	Step We check for a mandatory field to enter the Password.
	Test Data
	Expected Result The user to be able to discover this field.
7	Step We check for a registration button.
	Test Data
	Expected Result User should see which fields are mandatory.

SOFT230222-T554 (1.0) - Signup with Email (39 characters) and correct data in other fields. (v. 1.0.4)
